ABOUT THIS PARTNER:

HopSkipDrive has always been dedicated to making a difference in the lives of children and families. We understand that transportation can be the difference between success and struggle, which is why we're on a mission to use technology, operational expertise, and new thinking to help kids reach their full potential by providing a safe, dependable way to get them where they need to be.

What started as the struggle of three working moms trying to get their busy kids to and from school and all their activities more than five years ago, has grown into a proven transportation solution that helps schools, families, organizations, and government agencies give kids easier access to the opportunities they deserve.

Our "mom DNA" laid the foundation of extensive safety measures and attention to detail. We added technology and logistics to build a robust system that enables a seamless network of thousands of attentive CareDrivers. Together, this is the engine that powers a unique, proven solution for some of the largest school districts and social services agencies in the nation.
