

# SketchUp Assignment

## Cookie Cutter

### Requirements

- ◆ Is one solid group
- ◆ Shows smooth transitions between line segments (arc tool)
- ◆ Dimensions are reasonable and typed in
- ◆ Will produce a cookie/clay ornament that will stay together, no thin sections that will break off or stay in the cutter

### Features

- ◆ Student-made, original design
- ◆ All edges meant to be handled are chamfered
- ◆ Both cuts the outline of the cookie and indents a design on the interior without cutting through
- ◆ Design shows expert use of line technique (straight lines, continuous curves, symmetry)
